

Poly-Sorb Sound Absorbing Ceiling Panels

*Size	5' x 10' Boards
Thickness	2"
NRC	0.95 NRC Value
Core Density	4.5 PCF
Core Color	Dark Charcoal Grey
Face Density	12 PCF
Face Color	Black
Face Thickness	1/8"
FSI	Class A Flame Spread Index

*Other board sizes and custom sizes available.

Tackable Panels

Acoustical Panels

Impact Resistant Panels

Product Description:

Poly-Sorb is manufactured from 100% polyester with up to 56% post-consumer recycled content. Poly-Sorb itself is 100% recyclable and environmentally friendly.

Environmental:

Poly-Sorb is harmless to the atmosphere and human body. There are no carcinogen's which makes this product excellent for "clean room" environments like hospitals and around technology equipment. **Poly-Sorb is formaldehyde free.**

Sound Absorption:

Poly-Sorb provides ambient sound absorption where acoustic control is critical. With excellent sound absorption and a 0.95 average NRC value Poly-Sorb is ideal for dealing with and fixing sound issues.

Weather Resistance:

Poly-Sorb is water-resistant and if exposed to water no coloring will occur. It will not weather when exposed to air over long periods of time. Over time Poly-Sorb will not disperse due to weather.
